Toby Marsden
Sheet 1

Task: Transport costs

Filter

Maps 100% - 2 kinds

IDEAS:

no Uber
no rentals
no walking

Categorise:

Petrol

Train

Taxi

Bikes

Questions:

Does this display
accurate info?

Are the chosen idioms
ideal?

What is the purpose
of the vis?

LAYOUT

Toby Meriden
Sheet 2.
Task: Transport Costs.

Operation

Line graph:

- filter.
- Tooltips.

Choropleth:

- Tooltips
- no filter

Dot map:

- tooltips
- filter
- comparison.

Focus.

The focus of this view is keeping all idiosyncrasies visible in one page so that the viewer can gather all info at once.

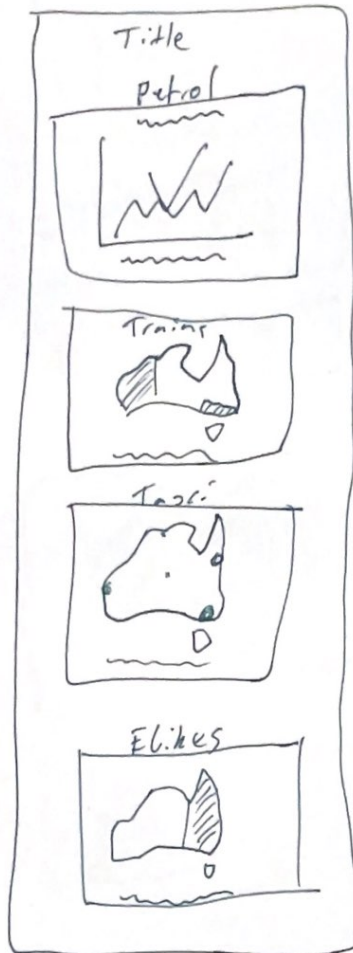

Care needs to be taken so not overwhelm the viewer with too much info at once.

Discussion.

Is it too much to have on one view?

How can we improve sight lines?

LAYOUT

Toby Morden
sheet 3
Text: Transport costs.

Operation

Line graph.

- a filter
- tooltips

Choropleth.

- ~~filter~~
- tooltips

Dot map.

- filter
- tooltip

Text:

Inline bolding

Focus

Improved vertical sightlines.

Reduce text width.

Long webpage. ~~the~~ user can scroll

Less info on one page

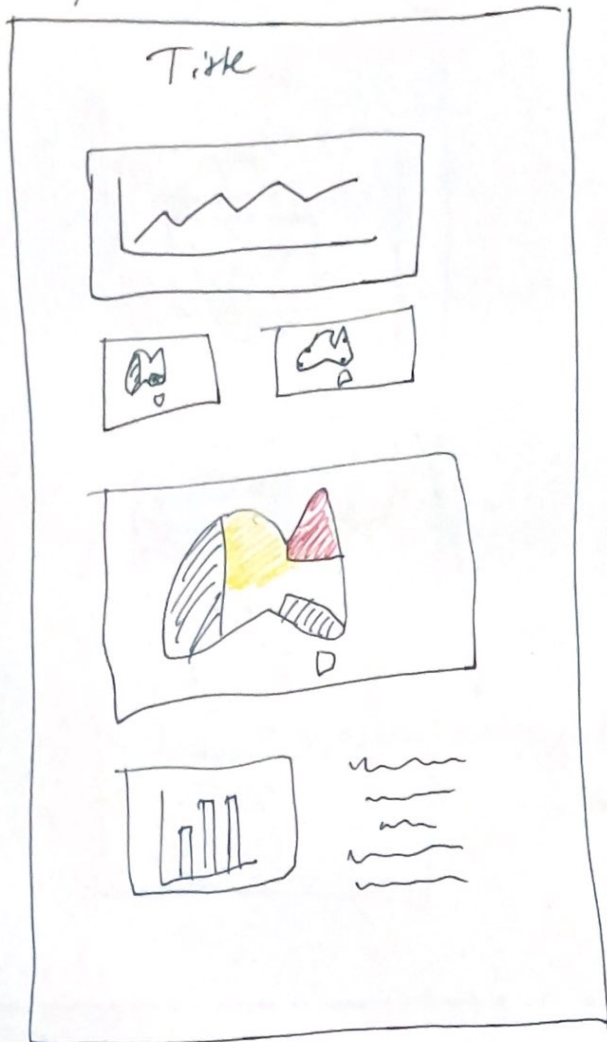

Questions:

Is it better?

What other ideas
can we include?

How does the story
follow through?

Layout

Toby Mersden
sheet 4
Task: Transport costs

Operation.

Line graph.

- filter
- tooltips

Choropleth

- tooltips

Dot map

- tooltips
- filter

Focus

Different sized idioms improve focus on main idioms.

less focus on simple graphs/text
less text on screen to detract from idioms.

Questions

Enough idioms to fill the screen?

is it accurate?

chart junk?

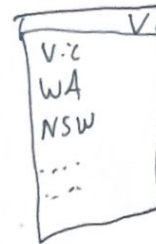

Layout
